Solid Waste Disposal

Our solid waste effluent is sent to manufacturers, which have been approved by the pollution control board to use as their manufacturing raw materials.

- ▶ Gypsum - Used by Cement and Fertiliser industries
- ▶ Iron Sludge - Used by Steel industries as a raw material to manufacture pig iron
- ▶ Sodium/Potassium Sulphite - Used by Paper & Leather industries
- ▶ Solid waste - the liquid effluent generated through the manufacturing processes is treated & the residual solid waste is sent to Bombay Waste Management (nominated by the MPCB)
- ▶ Bio Ash - Used by Interlocking Paver block manufacturers

Liquid Effluent Waste Disposal

After treating the liquid effluent, it is sent to the centralised effluent treatment plant (CETP) in Roha.
